

# GOGGLEWASH®

Specialists in the care of 3D glasses

MADE IN BRITAIN 

# The Gogglewash Experience

Delivering Perfect Results Every Time

For your customers to enjoy the complete 3D experience, your reusable 3D glasses must be adequately washed inbetween each use. Not only will this remove any grease or dirt that has accumulated on the lenses, but it will also help remove any bacteria to stop it from being spread to other customers. By utilising the Gogglewash range, you can guarantee a consistent level of hygiene and wash result.

The Gogglewash range is completely unique and has been specially designed to provide dependable and thorough cleaning results for your 3D glasses. Every product in the range has been purpose-built with quality and efficiency in mind.

The products in the Gogglewash range include the Gogglewash Machine, Chemicals, Racks and Trolley Units. When used in conjunction with each other, they consistently provide excellent results.

### Did you know?

The unique Gogglewash Machine utilises specialist washing cycles that are designed to clean your 3D glasses fast and hygienically.

That's why Dolby recommends us!

Clenaware Systems have been designing and manufacturing commercial washing equipment for over 50 years, and in that time we have acquired knowledge that is second to none. We are passionate about our brand and our products. We believe that everything we do, from design and manufacturing, through to the after-sales we provide, should achieve that goal of "Delivering Perfect Results" every time.

At Clenaware, "Excellence comes as standard".

## Chemicals & Water Treatments

Good quality chemicals are essential for cleaning and aid the drying process of your 3D glasses. 3D Glasses Rinser and Cleaner are especially designed for the the Gogglewash Machine and your 3D glasses, these chemicals are safe to use and have no adverse effects on your 3D glasses.

**3D Glasses Cleaner**

Removes dirt, smears and grease from your 3D glasses. Gogglewash Cleaner will leave your 3D glasses sparkling clean.

**3D Glasses Rinser**

Promotes quick drying with a crisp streak-free shine which will leave your 3D glasses with a professional finish.

### Fight against hard water & limescale with our range of Water Treatments

Calcium Treatment Units

Automatic Water Softeners

Manual Water Softener

# Prepare It

## Specialist Racks

Gogglewash Racks have been specially designed for washing your 3D glasses. With many different styles of 3D glasses available, it is vital that you use the right rack, this will ensure that you are washing your 3D glasses efficiently and effectively while also making sure they are secure in the Gogglewash Machine. The open design of the Gogglewash Racks allows for maximum water contact to ensure a thorough clean. When removed from the machine, the spacing provides excellent ventilation to assist with fast drying. Both Rack styles are made up of robust wirework which is then coated in a premium hygienic coating.

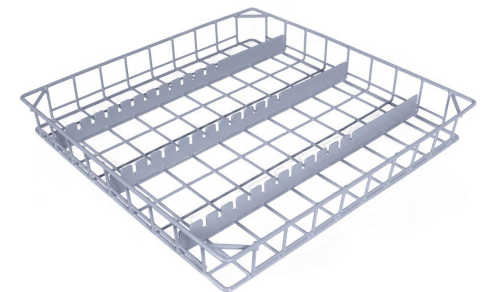

### Standard Rack

Designed for Dolby 3D and Xpand 3D glasses (although it will support other styles and brands\*). The Standard Rack can hold up to 16 pairs of 3D glasses, and the racks can be double stacked in the Gogglewash to wash up to 32 pairs of 3D glasses.

### Theme Park Rack

Designed to hold 3D glasses which have a smaller footprint than Dolby 3D or Xpand 3D glasses\*. The Theme Park Rack can hold up to 39 pairs of glasses, and up to four of these racks can be stacked and placed in the Gogglewash, increasing the washing potential to up to 156 glasses.

\*Please call 01933 666 244 or email [info@clenaware.co.uk](mailto:info@clenaware.co.uk) to check if your 3D glasses are suitable.

# Wash It

## 3D Glasses Washer - Gogglewash

The Gogglewash is a specialist appliance, with its large washing capacity and specialist wash programmes the Gogglewash is designed to wash your 3D glasses thoroughly and efficiently. Designed and built in the UK this fully integrated machine has everything you need to deliver perfect washing results for your 3D glasses.

The Gogglewash also utilises the "Fresh Water Wash" system, which ensures you obtain constant perfect results and level of hygiene.

### Specialist Cycles for 3D Glasses

The Gogglewash has several unique wash programmes which are designed to wash your 3D glasses effectively. The different wash cycles can be adjusted for glass and plastic lensed glasses and can support a variety of different styles and brands\*. Each of the various programmes will automatically adjust chemicals and temperature, ensuring you are getting the best possible results for your 3D glasses.

### Large Washing Capacity

With its large wash tank, The Gogglewash can thoroughly clean a large amount of 3D glasses in as little as two minutes. It is recommended that you wash your glasses using Gogglewash Racks. Thanks to the specialist cycles and unique basket styles, the Gogglewash Machine is capable of washing up to 640 glasses in 1 hour\*\*.

\*Please call 01933 666 244 or email info@clenaware.co.uk to check if your 3D glasses are suitable.

\*\*This is not a maximum theoretical number but what is reasonable to expect.

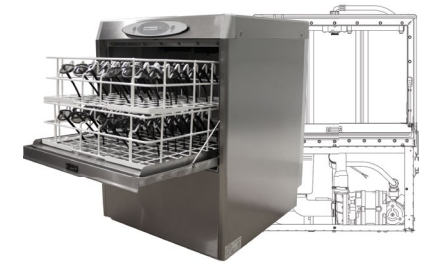

### Eco Friendly & Hygienic

The Gogglewash benefits from a "Fresh Water Wash" system, which means it is not re-using dirty water and this makes for a more hygienic clean. The machine utilises a low water volume and is very economical to run. By using less water, less energy is needed to heat the water, and less chemicals are used. When not in use, the machine completes an automatic closedown cycle which leaves it clear of water; which if left, could go stagnant.

### Integrated Design

The Gogglewash is designed to be a fully integrated machine with everything that you need built into it. The machine includes a self-diagnostics system, a waste pump and chemical injection and sensing. Thanks to an internal rinse booster pump, the machine can run efficiently with water pressure as low as 0.5bar.

Machine Type:	Cabinet	Closedown Cycle:	Yes
Dimensions(mm):	W605 x H840 x D650	Break Tank:	Yes

Fresh Water Wash:	Yes	Manufactured to ISO 9001 : 2008:	Yes
Standard Cycle Time:	2 Minutes		

# Store It

## Specialist Storage Trolleys

Gogglewash Storage Trolleys are an ideal addition to your 3D glasses washing process, as your 3D glasses can be stored in the Standard Rack which is then stacked in the trolley units safely and securely. By storing your 3D glasses in a Gogglewash Trolley, you can ensure that your glasses benefit from excellent ventilation while being out of the way to reduce contamination.

Gogglewash Storage Trolleys allow for the easy movement of 3D glasses from the wash area to the distribution point with four castor wheels, two of which have brakes for safety once the unit is in position.

### 6 Tier Storage Trolley

This trolley is the perfect accessory for storing a smaller number of 3D glasses. The 6 Tier Storage Trolley can hold up to 96 pairs of glasses; this will optimise space for your 3D glasses storage. This trolley is of a sturdy design, with side panels as standard and can handle the knocks and bumps of everyday use.

### 10 Tier Storage Trolley

This trolley is the perfect accessory for storing a larger amount of 3D glasses. The 10 Tier Storage Trolley can hold up to 160 pairs of glasses; this trolley will give you maximum storage space for your 3D glasses.

The Gogglewash 10 Tier Storage Trolley Dust Cover is available for this trolley and provides extra protection to your 3D glasses, keeping them away from dirt and debris.

## Service & Support Packages

### ClenaCare

ClenaCare is a service we offer for all warewashing products within our range. (Clenacare services are currently only available to UK customers). Our service is operated by well trained and experienced Clenaware engineers and technicians who have the knowledge and expertise to make a customers life a little bit easier. ClenaCare is available on site with an engineer or over the phone with the technical support team.

We believe it is important to have your equipment serviced and maintained by the manufacturer as there is no one who will be more experienced and have the knowledge to get you the best results out of your warewasher. We achieve this by looking after you from the installation of your equipment all the way through the life span of your machine making sure we provide you the best service possible.

#### Machine Installation Service

The Machine Installation Service covers your new or replacement Clenaware machine to be delivered and installed and includes all of the products in the Clenaware range.

#### Machine Breakdown Service

The Machine Breakdown Service is designed to provide onsite attendance by well trained, experienced Clenaware engineers when required by a customer for a breakdown.

#### Machine Maintenance Service

The Machine Maintenance Service is designed to provide maintenance and service to your Clenaware machine every 6 months to ensure that it continues to provide first class results. Like all equipment, a regular maintenance service provides long term benefits for the machine and its life span.

#### Machine Extended Warranty With Machine Maintenance Servicing

The Machine Extended Warranty package with Machine Servicing is designed to provide a fixed cost package for a complete peace of mind service that ensures a long life for your Clenaware machine. Your machine will be serviced every 6 months and if any parts are required due to failure then there would be no charges for parts or labour.
